

## Department of Labor Has Taken No Action

Strike Ballots Are Being  
Printed; Distribution Will  
Begin Tomorrow

### INJUNCTION IS SOUGHT

Secretary Frank Morrison of  
Federation of Labor Has  
Called a Conference

(By International News Service)

CHICAGO, March 11.—Strike ballots are being printed here today and distribution of the ballots to the 400 locals of packing house unions in the United States and Canada will begin tomorrow. If President Harding does not intervene in the dispute over wage cuts and working hours between packers and their employees, a strike vote will be taken. Plans for obtaining an injunction to prevent the packers from reducing wages on March 14 and taking the fight direct to the courts, which were discussed at the conference of union leaders in Omaha yesterday, have been referred to the executive board. This method may be resorted to later.

Secretary Frank Morrison of the American Federation of Labor, has called a conference of delegates of all allied packing house unions for next Wednesday morning at 10 o'clock in Chicago.

WASHINGTON, March 11.—The department of labor has taken no action on the appeal of the employees of the larger packers for government action to prevent wage reductions, Secretary of Labor Davis said today.

Secretary Davis said he was studying the appeal which had been referred to him by the president and that experts of the department are in close touch with the situation.

The department will use every effort to prevent a strike in the packing industry, Davis said. He would not say that the matter would be discussed at today's cabinet meeting.

## ADVISORY SCHOOL COMMITTEE WORK

The advisory committee appointed to investigate needs of city schools and formulate some plan for relieving the present congested conditions met for organization at the Intermediate school Thursday evening and elected Oliver Clark to serve as its chairman. After preliminary discussion, committees were named to take up the various ramifications of the problems, as follows:

Committee on buildings—Roy Kent (chairman), Clifford A. Cole, Charles L. Chandler, Mrs. Gladys S. Esselman, Mrs. Eustace B. Moore and Mrs. W. E. Halstead.

Committee on grounds—William C. Wattles (chairman), Francis E. Wilkinson, H. V. Henry, George H. Moore, Mrs. E. S. McKee, Mrs. Peter Deitrich. Committee on district lines—Mrs. R. C. Horner (chairman), Mrs. Amy I. Campbell and Mrs. H. V. Brown.

Columbus Avenue and Magnolia schools were not represented at the conference, but will be at later committee sessions and will be named on the committee on district lines.

The committees named are to come together at the Intermediate school on the evening of March 24 to report results and formulate plans.

## LABOR BUREAU WILL PROVE CONVENIENCE

At the city hall, a municipal employment bureau has been opened which is in charge of the young lady at the switch board. She already has several applicants for work listed, three stenographers, and four or five boys who want work of any sort. Like-wise women seeking opportunity to look after children. Citizens needing help of any sort are urged to call up the city hall and register their needs.

## ST. MARK'S GUILD BOASTS OF QUILTERS

The Ladies' Guild of St. Mark's Episcopal church held their regular meeting in the guild hall yesterday afternoon, with 27 members present.

The afternoon was devoted to the completion of several quilts. The guild has several noted quilters among its members, and their fame having gone abroad, the services of the organization are much in demand by private parties who wish fine quilting done.

This being the season of Lent, the refreshment feature of the afternoon was, of course, dispensed with.

## MISS LILA SHEA GIVES LUNCHEON

Young women employed in the public service department at the city hall were the luncheon guests Thursday of Miss Lila Shea at her home, 1608 South Brand boulevard. The guests report a delicious luncheon served at a very prettily appointed table. Covers were laid for Miss Ernestine Lyon, Miss Alice Gray Beach, Miss "Tat" Pearson, Miss Mary Logan, Miss Lila Webster and the hostess. Following the luncheon the girls returned to their office duties.

## GREAT TRIUMPH OF SEWER BOND ISSUE

Charles L. Chandler, well-known attorney and resident of Verdugo Woodlands, for which he is a constant and ardent fan, wore a beaming countenance when he addressed the board of city trustees Thursday night to briefly announce that 86 votes for the formation of municipal improvement district number 3 and a \$50,000 bond issue for a sewer system had been cast that day in his district, and of the number 74 votes were in favor of the bond issue and but 12 against it.

The project can, therefore, go forward as soon as the technicalities of the law have been satisfied and the contracts can be let after due advertisement for bids. To this important improvement, the first big unit in the sewer system which is a dawning possibility for Glendale, the city will contribute \$10,000 for disposal works.

The unity of sentiment in this high-class residence section is not hard to understand, in view of the fact that cesspools have been forbidden there as a measure of protection of the city's water supply, a portion of which is derived from Verdugo canyon. While the cost will be heavy, it is expected property values will advance to more than recompense owners for the burden they are assuming.

## THE ROLLIN' PIN HAS BEEN SOLD

K. E. Eckhardt has sold the Rollin' Pin Bake Shop on East Broadway to Charles A. Fawkes, late superintendent of the Clara Lewis chain of bakeries in Los Angeles. Mr. and Mrs. Fawkes will devote their personal attention to the Glendale establishment. As soon as Mr. Eckhardt can make the necessary arrangements he will begin the manufacture of the health bread which he has been making recently from a recipe of his own and which has found such favor with Glendale residents that he feels justified in going into the business on a large scale, for the wholesale trade.

## SIGHTING EXERCISE BY GLENDALE BOYS

The fifth separate infantry company, "Glendale's own," in the California National Guards, commanded by Capt. Thos. D. Watson, held their regular drill on the high school athletic field Thursday evening. A number of spectators were present and three men enlisted.

Major Vestal, assisted by his sergeant, started his instructions in sighting exercise and nomenclature of the rifle, which is given preliminary to going on the range. Every Thursday night a new squad will receive this instruction from Major Vestal.

The drill lasted an hour and a half and Major Vestal complimented the organization highly on its discipline. He made a very favorable impression with the men.

### Changes of Residence

Records at the public service bureau indicate that L. A. Smith is now residing at 1220 East Harvard.

J. C. Bahme has moved from 134 Franklin court to 106 1-2 South Orange.

Mrs. C. W. King is now living at 326 North Belmont.

C. R. Collam has transferred from 210 West Los Feliz to 3654 Second avenue, Los Angeles.

Mrs. Ireland has moved from 309 West Hawthorne to 637 North Maryland.

Mrs. Whitaker from 1207 North Central to 1221 East Colorado.

Paul E. Thilo is now at 103 East Los Feliz road.

J. M. Rhoades is established at 745 East Wilson.

H. Evans has moved from 718 South Brand to Long Beach.

Carl Welch has left 613 South Brand and can now be found at 920 East Palmer.

Mr. and Mrs. W. S. Price moved from 121 South Isabel to 131 South Isabel.

J. H. Durlee and R. S. Durlee have given up their residences at San Fernando and Winchester, and at 345 Mira Loma avenue, to go to Bronxville, N. Y.

## GREAT ACTRESS TO VISIT IN GLENDALE

Marjorie Rambeau Will Be  
Guest of Mother During  
New Engagement

Mrs. Lillian Rambeau, who has leased her home on West Lomita for the winter to some friends who begged for it, is now established with her mother, Mrs. Kindelberger, at 320 East Lomita, with her old friend, Mrs. Dora Glazier, who has returned to her home on what used to be known as "actress row," after a residence of several months in Los Angeles.

Mrs. Rambeau is impatiently awaiting the arrival of her daughter, who is to open next Monday a two weeks' engagement at the Mason. She comes with her own company in her New York success, "The Sign on the Door," her first appearance in Los Angeles since she was here two years ago. It is the first play in which Miss Rambeau has appeared in which her mother has not been present at rehearsals and assisted in one way or another, for she is herself a finished actress and a business woman of versatile talents. It will, therefore, be a novel first-night experience for her. Never in the life of Miss Rambeau have she and her mother been so long separated, and both are longing for the reunion. Scarcely less eager is Mrs. Kindelberger, who has been another mother to Miss Rambeau.

During her Los Angeles engagement the actress will be the guest of her mother. The play in which she is appearing is a thrilling melodrama, which had two long runs in New York and was equally successful in conservative Boston and Philadelphia.

It is easy to understand the talent of Miss Rambeau after meeting her mother, who was widowed a few months before the birth of her daughter, and who has had the responsibility of educating Miss Rambeau for the stage and launching her in her very successful career. This has made heavy demands upon her abilities, but she has always been equal to them and ready to fill in the chinks whether it meant enacting a role, directing a drama, acting as business manager, or what not. Since Miss Rambeau's marriage she has had less responsibility and has had more leisure, though she has by no means relinquished her professional activities.

Mrs. Rambeau, who sold her home on Chestnut street, now owns the property that was formerly the home of Mr. and Mrs. Harry Duffield. The actor has succumbed to the lure of the motion picture studios and is making a great success as a film artist.

Although Mrs. Rambeau came from an old Ohio family, whose forbears were pioneers in Virginia, she herself is of the west, for California has been her home since her sixth year. Her early womanhood was spent in the north and there the greater number of her old friends still reside. Nevertheless, Southern California, and Glendale in particular, is home, and she gets nostalgic if she is long away from it.

She leased her house expecting to spend the winter in San Diego, where she has many friends, but after a month there she and her mother returned to Glendale and persuaded Mrs. Glazier to let them share her home. Miss Rambeau has been quite mystified by these changes of address, and in her last letter begged her mother to "please stay put."

## BRIDGE-LUNCHEON BY MRS. GONZALES

Mrs. A. M. Watts and Mrs. F. B. Gonzales entertained with a luncheon and bridge party about 30 ladies Thursday at the home of Mrs. Gonzales at 412 North Louise street. The hostess had beautifully decorated her home with all the spring flowers in season and the party setting was unusually charming. The guests of honor were Mrs. White and Mrs. McIntyre of Crawfordville, Ind., sisters of Mrs. Gonzales. Most of the guests were from Los Angeles. High scores were made by Mrs. Jacks of Los Angeles and Mrs. Hastings of Hollywood.

## BIRD LECTURE GIVEN TONIGHT

An interesting and instructive bird lecture is to be given this evening at the West Glendale M. E. church, Harvard and Pacific, at 8 o'clock, by Professor Alfred Cookman, ornithologist and instructor of science in the Glendale Union High school.

Professor Cookman's subject is "The Courtship of Birds," and it will be illustrated with specimens of their nests and eggs. Excellent music and readings by Mrs. James E. Adams, Jr., and Miss F. Viola Flower will be other features of the program.

## DR. BRYANT LOSES AUNT BY DEATH

Services were held this afternoon at the Pulliam & Kiefer parlors at 2:30 o'clock over the remains of Mrs. Myra K. Mosher of 1812 Morgan place, Hollywood, an aunt of Dr. A. L. Bryant of this city. She was 86 years old when she passed away. Interment was at Grand View cemetery. She leaves a daughter and several other relatives, who reside in Hollywood.

## THREE CELEBRATE THEIR NATAL DAY

Mrs. Colin Cable Gives Dinner  
and Musical Evening  
for Trio

Mrs. Colin Cable of South Columbus avenue entertained Thursday evening at dinner and for an evening of music in honor of Dr. Cable, Mrs. Laura Stevenson Spang of Mount Washington and Mrs. Frazier of Riverdale drive in celebration of the birthday of the trio. Her home was charmingly decorated with violets, daisies, corn flowers, irises and other spring flowers, and on her smartly appointed table a St. Patrick's color scheme was carried out. Covers were laid for the guests of honor, Mr. and Mrs. Charles M. Turek and their granddaughter Margot Buxton, Mr. and Mrs. L. Roy Bosserman, Mrs. Charles Bosserman of La Porte, Ind., Mr. and Mrs. L. V. Ashton, Mr. and Mrs. William Smith and son Tom, Mr. and Mrs. Brothee, and the hostess.

Following the dinner Mrs. Spang gave several vocal numbers, for which Mrs. Bosserman supplied the piano accompaniment. Margot Buxton gave four fancy dance numbers, "Dance of Joy," "Butterfly Dance," "Clown Dance," and a Chinese Dance. The musical program also included Victoriana numbers.

## 'KINDER' CHILDREN ENTERTAIN P. T. A.

Tiny Tots Under Miss Alice  
Livsey Give Program at  
Central Ave. School

A really charming entertainment was provided at the meeting of the Central Avenue Parent-Teacher Association Thursday afternoon when a program was given by the tots in the kindergarten. It included:

"Songs of Spring," by little boys; song, "The Sweet Pea Lady," by a little pupil; action song, "The Frogs," by boys.

Then there were rhyme games which included such old favorites as "Oats, Peas, Beans and Barley, Grow," and "Sing a Song of Sixpence."

There were Mother Goose songs in pantomime—"Little Blue" by J. Elliott, "Simple Simon," and "The Pie-man," by Harold McNeill and Oliver Loomis; "Wee Willie Winkle," by Willis Hollins; "Ruckaby, Baby," by Lucien Horton; "Biddle Biddle Duckling," by Robert Gahler; "Little Jack Horner," by Herbert Matthews; "Jack Be Nimble," by James Appled.

A marching song by all the children concluded the program.

The business session of the association opened with a salute to the flag, led by the president, Mrs. Campbell.

Plans were discussed for a food sale to be held March 19, at the corner of Central and Stocker streets.

The meeting closed with the singing of old songs, led by Mrs. E. C. Kent with Mrs. C. M. Taylor at the piano. A social hour followed, in which tea and cake were served.

About 75 ladies were present and they were an enthusiastic crowd.

## SAILOR HOME FROM SOUTHERN WATERS

Farris Murdy, son of Mrs. Paul Jones of East Elk avenue, arrived Tuesday with the Pacific fleet from Chilean waters. His relatives here have had a brief visit of a few hours in which he told them many interesting things about the cruise and some disappointing ones, for instance, the smallpox epidemic at Panama, which prevented the boys from landing there on their return voyage. He expects to have longer leave in which he will have opportunity to greet friends here. His ship, which he considers the "best in the fleet," is the Mississippi. He is its champion wrestler and has been promoted from the duties of ship's stenographer to the management of what answers to the name of ship's canteen, where the boys lavishly spend their money.

### CURRENT EVENTS

Tonight  
Glen Eyrie Chapter entertains visiting district officers with 6 o'clock dinner.

Opera, "Chimes of Normandy," at high school.

Lecture on "Courtship of Birds" by Alfred Cookman, at West Glendale Church, 8 p. m.

Meeting of American Legion, at Hurst's Hall on Broadway.

Benefit entertainment for Junior Department, First Methodist Sunday School.

Meeting at branch library, Brand and Los Feliz, to discuss city charter.

Tomorrow  
All-day campfire meeting of N. P. Banks Post and Corps, at G. A. R. Hall.

Dance of Glendale Post, American Legion, at legion headquarters.

## An Investor Who Designs and Builds Fine Homes

SUNDAY SCHOOL  
ENTERTAINMENT

An entertainment will be given this evening at the First Methodist church for the benefit of the junior department of the Sunday school. An interesting program has been arranged, to which the Sunday school orchestra and members of the church choir will contribute. Dr. H. C. Scott, a former pastor, will speak; Dr. Joseph Marple will sing, and there will be other numbers by well-known artists. Everybody is invited.

## FAST WORK BY CITY TRUSTEES

With no protests on hand to argue their causes before the city trustees Thursday evening, members of the board were able to transact a large amount of routine business.

### Echo of Municipal Gas Plan

One of the first matters was the instruction of City Attorney Shaw to dismiss the case before the state railroad commission, the application for permit to purchase the distributing system of the Southern California Gas Company in this city. This was an echo of the past when the movement for a municipally owned and operated gas distributing system gained considerable momentum, but was dropped when facts and figures presented made the project appear impracticable.

### Peter Ferry Gets Extension

Peter Ferry asked and was granted an extension of time on the Maple street improvement contract.

Requests from the League of California Municipalities for the passage of resolutions opposing certain measures now before the legislature, such as the election instead of appointment of city marshals, and other bills, was referred to the committee of the whole.

On a written protest against the granting of a permit to erect a church edifice for Holy Rollers at 631 East Colorado, signed by residents of that locality, the board took no action, Attorney Shaw ruling that no action could be taken against that or any other church unless it should prove itself a nuisance.

### Concord Street Improvement

The application of Edwards & Willey for permission to oil the center of a portion of Concord street, as a temporary improvement for the comfort of residents, until such time as an improvement district can be formed, was granted.

### Opening of Wilson and Salem

Petitions for the opening and widening of portions of Wilson avenue and Salem street, were referred to the city engineer for checking and report.

### Franchise Receipts

The affidavit and report of Attorney McFarland on behalf of the Sunset Telephone Company showing gross receipts of the company to March 10, 1921, as \$89,616, of which the city is entitled to 2 per cent, was received and approved.

No protests were received against the improvement of Dayton Court, but because of an error in notices posted, a certain portion of the proceedings will have to be done over again.

Protests against the opening of Stanley avenue by Frank Campbell and F. L. Swigart, were read by the city clerk, but no action taken, other than to set a date for formal hearing.

A petition for the formation of municipal district No. 4 was referred to Clerk Shener for checking and report.

### Financing of Service Mains

Considerable discussion has had relative to the possible methods of financing service water mains as set forth in the statement of City Manager Watson, published in the Tuesday edition of the Glendale Press. The talk crystallized into a motion instructing Attorney Shaw to prepare a straw ballot to be voted by the people of Glendale March 29, covering the propositions mentioned, and that this ballot together with a condensed statement of the propositions, be sent to all voters, with the understanding that the board will abide by the verdict of the people as indicated by the straw ballots cast on the date named.

The report of City Manager Watson relative to the granting of a motor bus franchise to Mr. Orfutt, was referred to the city attorney for report on its legal aspects.

The appointment of two patrolmen was confirmed.

A traffic regulation ordinance was adopted, also a resolution ordering the widening of Brand boulevard at the south end.

### Peripatetic Shows

An ordinance for the regulation of peripatetic shows and amusements, was submitted by Attorney Shaw. For the operation of such shows without a permit, the penalty was fixed at \$300 or a jail sentence of three months. This and the dog kennel ordinance referred to elsewhere, were introduced by members of the board.

Attorney Lynch was requested to co-operate with the City Attorney in his legal preparations for the hearing of the telephone toll question before the railroad commission March 17.

### Lots Sell Rapidly

Lots are said to be selling rapidly in the newly opened tract north of the Glendale Research Hospital in the neighborhood of Doran and Adams streets.

Mr. Rigdon Charmed With  
Glendale; Had Desire to  
Live Here From First

## GLENDALE NEEDS HOTEL

Has Erected Eight Highly  
Creditable Buildings, and  
Others Are Planned

Much praise has been given the man who can make two blades of grass grow where only one grew before; but this is a story of a man who has made eight fine homes grown into being on a corner in Glendale where 18 months ago there was nothing but a stubble field.

This is the accomplishment of Nathan Rigdon, 224 West Doran street, who came to Glendale from San Diego a year and a half ago. Mr. Rigdon is not a contractor. He is an investor who designs and builds high-class homes, to sell to people who appreciate good workmanship and good design in home building.

"We were charmed with Glendale the first day we came here," says Mr. Rigdon. "It was literally a case of love at first sight; we wanted to stay here all night, in order to know what the mornings and evenings were like, but we could find no place to stay, so we had to go back to Los Angeles. Later we did get accommodations here, however."

"Glendale needs a good hotel very badly; undoubtedly others looking the field over for investment here are likewise inconvenienced."

However, this did not discourage the Rigdons from coming back, and after looking the town over with the trained eye of the experienced investor and builder, Mr. Rigdon bought the lots and began the improvement of the corner of Doran street and Central avenue. So successful was his effort that this corner is now considered by many the prettiest and best improved corner in Glendale. And a little over a year ago it was nothing but a field of oats!

The handsome houses on the property at this corner are of frame, veneered with hollow tile, plastered. Two of them are of ten rooms, two contain eight rooms, the rest, six rooms. Although they are all of modified Spanish type of architecture, and similar in design, no two of them are alike, each one having pleasing, individual characteristics peculiar to itself. The lots are all large; the southeast corner, occupied by the Rigdons' own home, is 100x150, the one directly opposite on the northeast corner being the same size.

Each one of these high class homes is finished in quarter-sized figured gum, and there are oak floors throughout. The rooms are spacious and well arranged, and they have many of the best built-in features, large windows, artistic fireplace, and, in fact, every up-to-date feature that makes for comfort and convenience.

The Magic Unit system gas furnace, electrically operated, by which one can turn the heat to either the first or second floors, as desired. Three of the houses have an electrical heating system besides the gas furnace, and all of them have basements.

An underground sprinkling system is the secret of the beautiful lawns about the place. Cocoa plumous palms between the sidewalk and the curb lend their stately beauty to the place, and the view of the hills in the morning from the porches of any of the houses is joy enough to sweeten the day of the beholder. Fruit trees and shrubbery have already a fine start.

The need for just such homes is demonstrated by the fact that only two of these houses remain unsold. One family wishing to locate in Glendale was about to settle in Pasadena, because they found no suitable home here, when, happily, they were shown one of Mr. Rigdon's houses.

Mr. Rigdon built 200 houses of the better in the mission hills district of San Diego; no two of them are alike. He brought his old crew of workmen with him from the southern city, and is at present building a bungalow at 630 North Central avenue and another on Myrtle.

"Many builders have built more houses in the past year," says Mr. Rigdon, "but I do not hurry my houses. They are of the better type homes, and it takes time to build a good home."

## WESTMINSTER GUILD MEETS FOR STUDY

The organization of Presbyterian girls known as the Westminster Guild who have united for the study of missionary work, met last evening at the Glendale Presbyterian Church, where supper was served to the 20 young women present. A brief business session was held during the meal and a resume of the life and work of David Livingston, African missionary and explorer, was given by Miss Marjorie Smith. Her talk was followed by a prayer service; Miss Mary McDill is the president of the Guild of which three women of the church, Mrs. C. M. L. Nelson, Mrs. M. P. Harrison and Mrs. Davis, are patronesses. Mrs. Nelson was present and took part in the meeting.

## WHAT'S YOUR IDEA OF GOD? IS ASKED

Students From China in Uni-  
versity of Chicago Send  
Questionnaires

(By International News Service)  
CHICAGO, March 11.—Christianity  
is on trial with a group of Chinese stu-  
dents at the University of Chicago.  
With the sanction of the school's au-  
thorities the students, in an effort to  
sound the religious sentiments of the  
United States, have sent a form letter  
asking certain questions of 1000 lead-  
ing Americans. The questions are:

1. What is your idea of God??
2. Do you believe in God?
3. Why?

The letter is signed by 21 Chinese  
students, 18 of whom are attending the  
University of Chicago. Attached to the  
letter is an indorsement signed by four  
professors, Albion W. Small, dean of  
the graduate school of arts and litera-  
ture; Edward Scribner Ames, instruct-  
or in philosophy, and E. De Witt Bur-  
ton, director of the university libraries  
and head of the department of the New  
Testament of the University of Chi-  
cago, and F. C. Sharp, professor of  
philosophy at the University of Wis-  
consin.

King Shi Wang, a student at the uni-  
versity, to whom questionnaires are to  
be returned, explained yesterday the  
reasons why the Chinese students were  
sending out the letters:

"We are attempting to learn the  
ideas of the leading men of this coun-  
try on Christianity in order that we  
may form our own opinions. There are  
three things we are trying to learn.

"1. What is it in which people be-  
lieve?  
"2. Is the object of their belief real  
or not?

"3. Has such a belief any value if  
socially or ethically considered?

"Two weeks ago we mailed out the  
letters to men all over the country and  
to date have received 125 replies. I  
am sorry, but I can't reveal the nature  
of the replies or the persons to whom  
the letters were sent."

"In a way, it is putting Christianity  
on trial, Professor Burton said, "but  
the purpose of the students is sincere.  
They want to get the actual opinion of  
the leading men in America in order  
that they may form their own opin-  
ions. Many of the students are at sea  
when it comes to religion and they  
want something on which to base their  
opinions. Brought up Confucianists,  
some have turned Christians and some  
are agnostics. Others don't know  
what they are and that is what they  
are trying to find out."

## COST OF LIVING JUMPS IN FRANCE

(By International News Service)  
PARIS, March 11.—The cost of liv-  
ing has increased 587.5 per cent in  
France since 1913, according to the  
newspaper Humanite. During the  
same period the living cost advanced  
313.1 per cent in England, and 226.6  
per cent in the United States, the pa-  
per's investigation showed.

**Method Corrects Stammering**  
An interested audience of parents  
and teachers greeted Prof. H. O. Ennis  
yesterday afternoon at the Intermedi-  
ate school, when he spoke on his meth-  
od of correcting stammering.

Professor Ennis has recommenda-  
tions from superintendents of schools  
all over the country and letters testify-  
ing to the good results obtained by his  
method.

He will begin a ten days' course of  
instruction on next Monday at the In-  
termediate school at 3:30 p. m. This  
class is open to all children who stam-  
mer, and parents and teachers are in-  
vited to visit. Professor Ennis says  
teachers having stammerers in their  
classes will find these lessons of bene-  
fit to them in aiding the children in  
overcoming this defect in their speech,  
which is a very important matter for  
them, and one which affects their fu-  
ture very materially.

## Paper Substitute for Glass

(By International News Service)  
LYONS, France, March 11.—A paper  
substitute for glass which was invent-  
ed during wartime for use in refugee  
homes is now being made in great  
quantities by the factories in Lyons to  
supply the demand of truck farmers  
and horticulturists. It has been found  
that this paper admits both heat and  
light in the same degree as glass, and  
for this reason is in great demand by  
vegetable growers in the districts of  
France where the "under glass" meth-  
od is largely employed.

## Plentiful Rain Predicted By Weather Expert Carpenter

The scarcity of rainfall in Southern California this season is no cause for alarm, according to Dr. Ford Carpenter, of the department of meteorology and aeronautics of the Chamber of Commerce of Los Angeles, who completed Wednesday a table of figures showing that during nine previous seasons the precipitation has been smaller than that of the present season.

"Though during those nine past seasons, dating back to 1881, the rainfall was very light up to March 10 of each year, in every instance the rainfall after March 10 of each year proved to be generous," said Dr. Carpenter.

"The rainfall from now on will be of great benefit to all crops. In the past the precipitation has occurred from heavy snows, but the run-off has not been very great, though a considerable amount of water is stored in the mountains at present. The water that is stored in the mountain areas is very valuable to the agricultural regions. It has not been visited by the drying, hot winds that are usually prevalent at this time and which evaporate the mountain snows."

"Though there is such a wide diversity in rainfalls of the various seasons, I am thoroughly convinced that, though this season has been a dry one, Southern California will be visited yet by bountiful rains at the most opportune time. Though the rainfall has been deficient, there is no cause for alarm."

In Dr. Carpenter's statistical table, Los Angeles is found to have had this year a seasonal precipitation, up to March 10, inclusive, of less than 7.04 inches. This is a deficient precipitation, yet in nine other seasons it has been even smaller.

During the season of 1881-2, though on March 10 the season rainfall was only 5.31 inches, at the end of the season the figure had increased to 10.40 inches. During the season of 1893-4, the driest in the history of California, though the figure was but 6.39 inches on March 10, at the end of the season the figure also had slightly increased.

During the season of 1882-3, the rainfall figures up to March 10 were the same as the figures of the present season to date. In that year, following March 10, five more inches of rainfall were registered at the end of the season.

The complete tabulation of the nine dry years, compiled from records, March 10 was 65 per cent; after March 10 of each year the average was 35 per cent.

The complete tabulation of the non-dry years, compiled from records of the United States Weather Bureau by Dr. Carpenter, is as follows:

Season	Total to March 10, incl'v.	Total after March 10, incl'v.	March 11-31, incl'v.	April	May	June	Total for season
1881-2	5.31	5.09	2.63	1.83	0.63	T.	10.40
1882-3	7.04	5.07	2.87	0.15	2.02	0.03	12.11
1883-4	6.39	0.34	0.01	0.13	0.20	T.	6.73
1893-4	7.02	1.49	1.00	0.19	0.30	T.	8.51
1895-6	4.82	2.24	0.46	0.03	1.75	T.	7.06
1897-8	2.98	2.61	1.81	0.18	0.04	0.58	5.59
1898-9	5.56	2.35	T.	0.54	1.81	T.	7.91

ARDMORE, Okla., March 10.—The prosecution will not ask the death penalty if Clara Smith Hamon is convicted of the slaying of Jake Hamon, Oklahoma oil king and Republican national committeeman, it was learned today. It also became known that the state expects to prove that Hamon, while dying, said the girl had shot him while he lay on his bed in the suite occupied by the couple in a hotel here.

The defense, it was learned, will have at least one important witness connected neither with the girl nor the Hamon interests, who will testify that he also talked with the oil king on his death bed and will deny that Hamon accused the girl as the prosecution claims.

Although the defense is not disclosing its case, so far there has not been any indication that the girl on the stand will deny her version of the shooting as related to International and Universal services in interviews after she was located in Mexico.

For the two women around whom the drama of the case is centered, the trial will determine which of the two—the wife or the girl—has the final triumph. Against the wife's story that the oil king desired her at the last, will be the testimony of witnesses for the defense that while Hamon raved in delirium on his death bed, it was the girl for whom he called and vowed his love.

On the eve of her trial, the girl declares there has been no triumph for her in the ten years she spent with Hamon.

"There was only shame and degradation," she said today. "I had no legal ties to bind me to the man I loved. I was just an affinity. Even if I am freed, wherever I go and whatever I do, the shame and degradation of the last ten years will haunt my memory."

## WILL NOT ASK DEATH PENALTY

By MILDRED MORRIS  
I. N. S. Staff Correspondent

ARDMORE, Okla., March 10.—The prosecution will not ask the death penalty if Clara Smith Hamon is convicted of the slaying of Jake Hamon, Oklahoma oil king and Republican national committeeman, it was learned today. It also became known that the state expects to prove that Hamon, while dying, said the girl had shot him while he lay on his bed in the suite occupied by the couple in a hotel here.

The defense, it was learned, will have at least one important witness connected neither with the girl nor the Hamon interests, who will testify that he also talked with the oil king on his death bed and will deny that Hamon accused the girl as the prosecution claims.

Although the defense is not disclosing its case, so far there has not been any indication that the girl on the stand will deny her version of the shooting as related to International and Universal services in interviews after she was located in Mexico.

For the two women around whom the drama of the case is centered, the trial will determine which of the two—the wife or the girl—has the final triumph. Against the wife's story that the oil king desired her at the last, will be the testimony of witnesses for the defense that while Hamon raved in delirium on his death bed, it was the girl for whom he called and vowed his love.

On the eve of her trial, the girl declares there has been no triumph for her in the ten years she spent with Hamon.

"There was only shame and degradation," she said today. "I had no legal ties to bind me to the man I loved. I was just an affinity. Even if I am freed, wherever I go and whatever I do, the shame and degradation of the last ten years will haunt my memory."

### LITTLE BENNY'S NOTEBOOK

BY LEE PAPE

Mrs. Ebbits came to see me this afternoon, being a big lady, with a little baby, the baby being asleep and Mrs. Ebbits saying, "Can't we put him upstairs, where it's quiet so our talking won't disturb him?"

Certainly, said ma. And she carried the baby up and laid it on the setting room sofa and went down again to talk to Mrs. Ebbits, me listening to them a while without getting much enjoyment out of it, so I went up to see if the baby was still asleep. Wich it was, but it wook up pritty soon probably on account of me blowing on the top of its hed to see if it would have any effect.

Holey smokes its going to cry, I thawt. Wich it was, and I started to make funny faces at it to make it change its mind and laff, ony the ony effect was the opposite effect, and the baby opened its mouth about twice as wide as wat I thawt it could and started to yell like everything, me thinking, Heck, holey moses, g.

And I quick ran in the setting room closet and shut the door and Mrs. Ebbits and ma came running up. Mrs. Ebbits saying, The poor angel and ma saying, The poor little lamkins. Me thinking, The poor fish. And the baby kepp on yelling and ma sed, Maybe she wasent warm enuff, Ill get her another cover out of the closet heer.

Me thinking, Heck, darn it. And I quick laid down on the floor of the closet and pertended I was asleep, and ma opened the door, saying, Well my goodness, of all things. Meaning me, and I kepp on laying there as if I was asleep, may saying, Benny, wat have you been doing to that baby? Me not ansering on account of not wanting to spoil the imitation of being asleep, and ma shook me with all her mite, saying, Stop this nonsents. Proving she knew all the time I wasent asleep, and I opened my eyes saying, I didnt hardly do anything to it, ma, all I did was blow on the top of its hed and make a few faces at it.

Well then Ill hardly do anything to you, sed ma.

And she gave me four cracks some place with a ruler. Not sounding like hardly anything but feeling like a hole lot.

### HARVARD CREWS HAVE MANY RECRUITS

(By International News Service)

CAMBRIDGE, Mass., March 10.—One hundred and seven candidates reported for freshmen crew at Harvard. They were addressed by Captain McCagg of the varsity crew; Dr. R. Heber Howe, head coach of the freshmen, and Bert Haines, his assistant. Ice measurements made on the Charles river show only three inches of ice. It is hoped that the river will be cleared within a few weeks, and save the crews the trouble of visiting Lynn Harbor daily for practice.

### ABOUT WOMEN

Major Julia C. Stimson, dean of the Army School of Nursing, has 520 student nurses and 1100 graduate nurses in her corps.

Girl students of Drexel Institute, Philadelphia, have formed a rifle team. Nine-pound target rifles are used. Lieut. J. P. Lyons, U. S. A., is instructing the girls.

Mrs. Samuel Semple is the one woman member of the Industrial Board of the State Department of Labor of Pennsylvania.

The largest stage salary paid by Mexico is two thousand dollars a week. It is received by the most popular actress of the country, Maria Conasa.

Chinese girls recently demonstrated their thorough modernism and Americanism by helping the Red Cross drive in San Francisco.

The young women of Burma must grind their own face powder, using a kind of mortar and pestle to pulverize the rice grains.

In Norway, it is a national custom to place a feast for the birds, in the trees and upon convenient elevations, on Christmas Day.

Miss Annie Oakley, known as a marvel in the handling of firearms, has taught the art to more than ten thousand women and girls.

Paul Helleu, the noted French etcher of rouge and cigarettes by women, declaring that it spoils their beauty and charm.

Mrs. Miriam L. E. Lippincott has been appointed a member of the Camden, New Jersey Board of Education, the first woman to become a member of that board.

The Girls' Reserve of the Y. W. C. A. has one hundred thousand members throughout the country enrolled under the slogan of "health, knowledge, service and spirit."

### DISCUSS QUESTIONS AT "TOWN MEETING"

In the early days in New England, the people used to gather together for the "town meeting," to discuss questions pertaining to the good of all. At that time communities were smaller and the people, therefore, had the chance to know each other. All public matters were discussed and decided in the town meeting. There every man met his neighbor on equal terms. There the laws were made.

As communities grew in size, such meetings, for the sake of making laws, at least, became unwieldy and a government by representatives was substituted for the meeting of the whole people.

The community meeting place is still necessary in our own day, though not for the sake of law-making, it is just as necessary now to a community's well being, however, that its people know each other as it was in the early days; and the community center is still the place where every man may meet his neighbor on equal terms.

Charles Lamb once said he could never hate a man if he knew him. The gentle humorist voiced a mighty truth; better understanding of one's neighbor must preclude hatred of him, in a mind that even approximates fairness. And the civic center, the meeting place of all local civic activities, affords the chance for meeting and knowing one's neighbor; a chance, through acquaintance and consequent understanding, to harmonize all discords in the community, to overcome prejudice, always the concomitant of ignorance, to conciliate the good will of even the most adverse factions and to reconcile them to measures for the common good which would otherwise be opposed by them.

In short, the civic center is a potent means of promoting the general welfare, even as it was in the days of the Pilgrims back in the year 1621.

In this later day we have learned that the civic center should be also the recreation ground for all the people of the community. In this we have advanced beyond the knowledge of our staid, stern Pilgrim ancestors, who would have been scandalized at the modern idea that recreation is a necessity to sane living. They had learned that no man lives unto himself—and no woman, either—and passed the knowledge down to us. Gradually we have acquired the further knowledge that all work and no play makes Jack a very dull boy; as to what it does for Jill—if the early New Englanders had given this matter some small consideration, they might have been spared the reign of terror caused by the witchcraft delusion in 692, or thereabouts.

Rest, recreation, rebuilding—we have learned that these are among the elements of success, and that they are to be found in sane and healthful amusement. It is for the body to rest, as well as to toil. It is for the mind to change and relax, as well as to concentrate. It is for the man to play, to rejoice, to laugh, as well as to struggle and to pile up victories.

Rightly balanced work and play are the handmaidens of happiness. They pay big dividends. They are worth while.

A civic center will bring us to a better understanding of each other; sympathy and tolerance wait upon understanding—they make for cooperation.

As a recreation center, the community center functions as capably in promoting the general welfare as it does in other civic activities, for it affords all a chance to relax and to play; besides, even in recreation it cements us together. When we have played and laughed together, we have found common ground, we have drawn nearer each other.

Glendale needs the civic center. Let's all work for it.

### FOOD FOR THOUGHT

We speak of "friction" in an organization, "friction" between individuals, "friction" in our own lives; it is so apt a figure of speech that we do not realize that it is one until our attention is called to it. Literally, friction applies only to physical objects. In physics friction is defined as the resistance which anybody meets with in moving over another body. No body is quite smooth, all have elevations, and when one moves over another, some of the projecting points of the one are sure to center the cavities of the other, and render movement more difficult. Friction is a retarding force in nature; it retards action, reduces product and wastes power.

Friction wears out and breaks down machinery. Friction wears out and breaks down lives. Friction is the most constant problem in mechanics. It is the most destructive element in life. It wears, destroys, kills.

We use the term figuratively, applying it in a metaphorical sense to life and social relationships, because we realize that it is so wearing, wasteful and needless that it seems the very same thing, in effect, at least, as the friction of mechanics. We have evolved or discovered many devices for deducing friction in mechanics. It is strange that we do not take the same pains to learn means of reducing it in our lives.

The dirt that accumulates in machinery is the greatest cause of friction. The irritability and worry and fear that clog that delicate piece of machinery, the human brain, are what cause friction in life. They destroy in a measure almost unbelievable. They are to the wonderful mechanism of the mind what coarse sand would be thrown into gearings.

The mental power of the average man or woman can be increased thirty per cent by the elimination of friction. Tact, cheerfulness, a willingness to see things from the other fellow's viewpoint, self-control, are points that make for poise in our own minds and harmonious relations with others.

The character of our thoughts, our manner of contact, have a distinct influence, an influence wider even than the pleasantness or unpleasantness, content or discontent they inspire in those with whom we associate. They shape the nature of our relations, the character of those we come in contact with, and our own character.

#### SIGNS OF SPRING

St. Patrick favors in the showcases and windows at the Glendale Book Store.

Bunnies and Easter eggs at the candy stores.

Blue grass seed, sprinklers, roller skates on display at Cornwell & Kelty's.

First showing of iris in real fleur de lis colors of blue and gold at the Glendale Florist's.

New spring coats in light colors, with raglan sleeves and self-colored embroidery, just received from New York, at Hatz's.

Pancy spring hosiery in changeable colors in the windows of Robinson's Men's Shop.

Near summer dresses of silk and cotton, beautiful to behold, at Webb's.

At the real estate offices they can only hang out placards announcing wonderful bargains with gardens and

## Recommendations to Council By City Manager Watson

Honorable Board of Trustees,  
City of Glendale, Cal.  
Mrs. Bartlett and Gentlemen:

We submit herewith cost of improvements to water system that are to be paid for out of the \$260,000 water bond fund. This includes all improvements for which contracts have been let or materials purchased and city departments authorized to do the work. These figures are substantially correct, but may vary slightly as to the amount of some items, as exact figures cannot be obtained at this time. They indicate, however, in a general way how matters stand with regard to these expenditures to date.

Second pumping unit, \$33,300.

Large reservoir, including cost of site, incidental expenses and engineering, \$70,624.65.

Thirty-inch trunk line on Grand View avenue will cost complete, including engineering and inspection, \$44,149.30.

There has been a small amount expended for engineering on plans for wells in Verdugo Canyon, amounting to \$163.15.

There has been appropriated for 16-inch pressure pipe line on Grand View avenue and Tenth street \$33,000. This pipe has been purchased and is now in place.

Grand View reservoir, including cost of site and small pumping plant and pipe line in connection therewith, including incidental expenses, \$31,575.34.

Cast iron pipe line for Sycamore Canyon road and riveted steel pipe line for East Broadway, including incidental expenses, \$18,622.20.

There has been a small amount expended for engineering in the preparation of plans for pipe line on Mariposa and Acacia streets, amounting to \$104.20.

Other miscellaneous expenses \$1,492.73, making a total of \$233,031.57.

Bonds have been sold, including the \$10,000 in escrow for the purchase of the Grand View reservoir site, in the sum of \$256,000. Deducting therefrom the cost of items as set forth above, there is a balance of \$22,968.43, also \$4,000 of bonds unsold.

When the improvements contracted for, as set forth above, are installed they will constitute a complete water supply system, independent of the Verdugo Canyon source, that will furnish a flow of 666 miner's inches, which in itself would be sufficient for the present and immediate future needs of the city.

### Five-Cent Bus Line

In regard to the application of A. P. Offutt for franchise to operate motor bus service on certain streets in the City of Glendale, which was referred to us at your meeting of February 17, we respectfully report as follows:

The route suggested by Mr. Offutt, viz., beginning at the present west terminus of Patterson avenue at the southeast corner of the new park and along Patterson avenue to Columbus avenue, south on Columbus avenue to Broadway, east on Broadway to Adams street, south on Adams street to Windsor road, would bring a portion of the northwestern and southwestern sections of the city in closer touch with the main business center and the car line.

I believe, however, a slight modification in the route might be desirable, as follows:

Fix the northwest terminus at Pacific avenue and Sixth street, thence south on Pacific avenue to Burchett street, west on Burchett to Columbus, south on Columbus to Broadway, west on Broadway to Pacific, south on Pacific to Harvard, east on Harvard to Brand, north on Brand to Broadway, east on Broadway to Adams, south on Adams to Windsor road.

I understand Mr. Offutt desires to secure a permit from the City of Glendale to operate a half-hour bus service on the route suggested by him, the fare to be 5 cents. This is a matter that might well receive the hearty support and encouragement of the city.

If it is within the jurisdiction of the city I would recommend that an ordinance be prepared providing for the issuing of permits to operate such service, not only along the route suggested but along any that might seem advisable, and that such ordinance provide that the rates of fare and frequency of service and all other necessary matters pertaining to service be set forth in permits issued under the provisions of such ordinance, and that a bond be executed to guarantee the service required by such permit.

I believe that the best interest of the city would be served also by providing that the service, once established, be protected from competition as long as such service is in accordance with permit issued therefor and is adequate to take care of the needs of the zone served thereby.

Pending the enactment of such ordinance as your board may deem advisable in this connection, if it is within the jurisdiction of the board, I would recommend that Mr. Offutt be granted a temporary permit for a period of six months to operate a bus service along

the route outlined herein and that the service be half-hourly and the fare 5 cents.

### \$100,000 Water Bonds

Pursuant to verbal request of the members of your board, we prepared a general statement setting forth some of the requirements of the water distribution system and suggesting methods of financing the necessary investments in connection therewith, also setting forth our recommendations as to the expenditure of the \$100,000 of water bonds if the same should be authorized on March 29. Copy of this report was furnished members of your board March 8 and by authorization of Mr. Dwight W. Stephenson, president of the board, the same was published on that date in the Glendale daily papers.

This report covers a very large field and was prepared in much less time than we had intended to devote to it. We thought advisable, however, that you have this statement before you at the earliest possible moment, inasmuch as some of the facts set forth therein might have a bearing on the policy you desire to announce in regard to the expenditure of the \$100,000 water bonds if the same should be voted. In going over the report again after its submission to the members of your board we find that we desire to supplement it with the following:

First—Where distribution mains also serve as service mains that, the proportionate cost thereof that would represent the cost of a service main laid will be financed according to whatever policy is adopted for the financing of service mains.

For instance, if an eight-inch distribution main is required on a certain street and that main will also serve as a service main for the property abutting on such street and should the policy of the city be established to finance the cost of distribution mains by assessment on the property served thereby, then the proportion of the cost of such eight-inch distribution main that would represent the cost of a four-inch service main would be assessed to abutting property and the balance of the cost of such distribution main would be paid for by bond issue. On the other hand, if the policy should be adopted to finance the cost of service mains from general bond issue with the understanding that bond redemption and interest thereon be met by tax levy on the assessable property of the entire city, then the cost of that portion of the eight-inch distribution main that would represent the cost of a four-inch service main would be financed in accordance with that plan.

Second—We want to add the following to the list of streets in which distribution mains will be laid should proposition No. 2 carry:

Glendale avenue—Palmer to Cerritos avenues.

Brand boulevard—Acacia to Cypress streets.

San Fernando road—Windsor road to Palmer avenue.

Extension of the line of Chester street, from Myrtle street to Broadway.

Dryden street—Brand boulevard to Campbell street.

We want to emphasize that these distribution mains are needed on the streets suggested for the purpose of increasing the pressure in the whole district and should be considered in that light by property holders and consumers of water whose places are not located on streets upon which it is proposed to lay these mains.

### Verdugo Woodlands Bonds

Our attention has been called to a misunderstanding that seems to have arisen in the minds of some of the residents of the Verdugo Canyon district in regard to the proposed bond issue for installation of outfall sewer and disposal works as set forth in ordinance calling election in Municipal District No. 3, Thursday, March 10. The misunderstanding seems to be in regard to that portion of the bond issue amounting to \$10,000 that is to be used for providing the disposal works.

In order that this misunderstanding might be corrected before the election, which was held today, we secured the approval of the members of the Board of Trustees to file with Chas. L. Chandler, president of the Verdugo Woodlands Improvement Association, the letter attached hereto, which has the signatures of all the members of the board and, in accordance with this letter, we present herewith resolution declaring it to be the policy of your board that, should the election for the \$50,000 of bonds carry, that bond redemption and interest on the \$10,000 thereof that is to be used for sewage disposal works will be taken care of from other revenues than a special tax on the district.

THANKING YOU AGAIN

David Donwell

attached hereto from Clarence P. Day, requesting, on behalf of Banister and Day, that they be given permission to proceed at the earliest possible date to begin work on the 300,000-gallon reservoir, pumping plant and pipe lines as per their agreement, dated February 8, 1921. I understand that there is now no doubt as to the city's ability to acquire the ground upon which this reservoir and pumping plant is to be built and, inasmuch as it is quite desirable that these improvements be completed at the earliest possible date, I would recommend that their request be granted and that they be notified that they may commence work under this contract at once.

### Appraise Value of Lot

Pursuant to your instructions of February 10, that we take steps to have the city's lot on East California avenue appraised by three appraisers, one to be appointed by the city, one by G. H. Rapp, who has made application to purchase the lot, and the third to be chosen by the two thus appointed, we secured the services of Mrs. Mabel L. Tight, 126 North Everett street, to act for the city and G. H. Rapp secured the services of Mrs. Fred

# SUNSET CANYON COUNTRY CLUB PLANS BEAUTIFUL CLUBHOUSE WITH MANY UNIQUE FEATURES

## Aims and Objects of the Club

The organizers of the Sunset Canyon Country Club, with offices 1230 Marsh-Strong Building, Los Angeles, have formulated plans for one of the most unique country clubs in the United States. The property contains about 1217 acres and is situated in the Verdugo Mountains between Glendale and Burbank.

In addition to a magnificent clubhouse, designed by H. H. Whitley, one of Los Angeles' most noted architects, famous for his many Mission design homes in Southern California, probably the most unique feature of this club is the cabin site privilege allowed each member.

The club is purely social and athletic, there being provision made for golf, tennis, swimming, hiking as well as horse back riding. The golf course has been designed by Mr. William Watson, the designer of the Chicago, Detroit, Boston and California Country Club links. Mr. Watson says that of all the golf links he has designed, the Sunset will be the sportiest of them all.

### The Club House

The clubhouse is to follow the Spanish Mission style of architecture. The central portion of the building, which will be 100 feet by 50 feet, will be used as a ballroom or lounging room, while the left wing will be devoted to card rooms, music room, private and main dining rooms, serving pantries, kitchen, with ladies' lockers in the basement. The right wing will be used for pool and billiards, bowling alleys, smoking rooms and grill with the men's lockers in the basement. The upper portion of the building will be provided with sleeping rooms for members and their guests. Wide verandas will extend along both wings of the building, giving a broad outlook over the mountains, the golf course and many miles of the beautiful San Fernando Valley.

### Cabin Sites Allotted Members

#### Each Member Will be Allotted a Cabin Site

provided he builds upon it. The location of these sites will depend upon the amount of money a member will invest in the cabin, the size of the lots being ample for a cabin of several rooms. Upon moving away or leaving the club, a member will have the right to transfer his cabin to another member or his membership and cabin to an outsider who is acceptable to the membership committee. There will be a small charge made for electricity, water, fuel and any county or state taxes assessed, but no charge for the land as the monthly dues will cover this item. Water has already been piped the entire length of the canyon and merely needs connection to serve the cabins.

## A Children's Playground---Other Features

Trails will be built to the highest peaks where deer lodges will be erected and camps established at various points. These trails will be used for horse back riding as well as hiking. The view from these peaks is beyond description. One can see the entire San Fernando Valley, as well as Los Angeles, Hollywood, Universal City, Fullerton oil fields, the ocean and on a clear day Catalina Island.

### A CHILDREN'S PLAYGROUND WILL BE BUILT

in the "Indian Village," which is situated about 300 yards from the mouth of the canyon. This playground will contain toboggan slides, swings and many other amusements necessary for the entertainment of the kiddies while parents are golfing, hiking or entertaining at the clubhouse. Capable lady attendants will be in charge at all times.

A commodious log cabin will be erected in the center of the children's playground where tea will be served and rest rooms provided. The present natural beauties of this spot will be maintained as near as possible.

A large swimming pool is to be built in the rear of the clubhouse, while tennis courts and croquet grounds will be in the front of the building.

## LONG TERM LEASE ON PROPERTY WITH OPTION TO PURCHASE

The lease on this 1217 acres runs for a period of 35 years and the club is given the option to purchase at any time within ten years at \$132 per acre. The dues the first year are \$1.35 per month and thereafter they are not to exceed 80 cents a month. The membership fee at the present time is only \$60.00 but will be increased at the discretion of the governing board. By the time the building is completed this fee will be raised to \$500. Anyone can see that at the end of ten years the grounds would be fairly valued at one million dollars when the wonderful growth of Los Angeles and suburban cities whose future is now assured is taken into consideration. The land holdings of this club will be from six to ten times as large as the average golf club and if the property is purchased at the end of ten years, the whole 1217 acres would cost a great deal less than the land cost of the average golf club in California at present.

## Glendale Citizens Endorse Club

More than one hundred of Glendale's leading citizens have become members of the Club and there is still an opening for others to avail themselves of the opportunity of affiliating themselves with this most unique Country Club situated right at our door.

Any others desiring further information regarding plans, etc., may cut out the attached coupon and mail to the Glendale representative,

## ABOUT PEOPLE YOU KNOW

Mrs. M. L. Tight goes to Venice today on a business trip.

Mrs. J. W. Cotton, 1137 San Raphael avenue, who has been seriously ill, is much improved and is able to be up.

Mrs. McGowan, mother of Mrs. Ina N. Randolph of 416 North Jackson street, is visiting her daughter, Mrs. Judson Lovell of Long Beach.

Mrs. L. Mitchell of 359 West Elk avenue has as her guests, her mother and father, of Santa Ana, who are en route to Canada.

Mr. and Mrs. I. Gould, of East Lomita, left yesterday for the Mojave desert where they will spend a week or ten days with their son who is manager of a ranch there.

I. C. Scott of Detroit, Mich., is visiting Mrs. Ida Ford of 133 North Jackson street. He has been in Southern California some time visiting a sister, Mrs. Paul Kruger of Los Angeles.

Mrs. Mortimer Baker, of 215 West Milford street, had as her dinner guest one day this week, Miss Antoinette Clark, of Sheffield, Connecticut, who is spending the winter in Pasadena.

The combined choirs of the Episcopal and Congregational Churches will sing Stainer's "Crucifixion," on Good Friday, at the Episcopal Church and the Thursday preceding at the Congregational.

Van Easterday of Urbana, Illinois, has come to Glendale to reside. He is figuring on a business venture, the particulars of which will be announced in the Press at an early date. Mr. Easterday will reside at 505 North Louise.

Little Billie Ream, four-year-old son of Mr. and Mrs. W. R. Ream, 1843 Gardena avenue, has been wishing for a birthday for 364 days. So March 11 came around all right today and his parents gave him a bouncing birthday party this afternoon. All his friends were present and had an enjoyable afternoon.

Mrs. Jo Connors, of Manhattan, Nevada, who is visiting relatives in Los Angeles, has been the guest for a few days of Mrs. Flora Pixley, 146 West Lomita avenue. Mrs. Connors was entertained yesterday in the home of Mr. and Mrs. Guy Pixley, and was the week-end guest last week of Mrs. Flora Pixley's daughter, Mrs. C. T. Dikes, at Montebello.

Messrs. W. B. Kirk, D. Edwin Murphy, H. C. Vienacke and the Rev. C. Kelley were guests last evening at a banquet to leaders and committeemen of the Los Angeles County Y. M. C. A. which was given at the Christian church in Monrovia. Dr. John R. Brown, Jr., senior secretary of the physical department of the international committee of the Y. M. C. A., gave an inspiring address.

HIGHLY COMMENDED  
STATE COMMISSIONCommittee Fails to Express  
Opinion Either Way on  
Public Utilities

(By International News Service)

SACRAMENTO, March 11.—Admitting that as a result of their investigation of the state railroad commission, many of their preconceived ideas had undergone a change, the joint legislative committee today made public its report, concluding with strong commendation for the public utilities act. "It has worked well," the report declares, "and it working well today. Strengthen it rather than weaken it. During such times as have just passed have faith in your commission that it will be a buffer between you and the utilities, so that the people on one hand will receive good service at a fair price and that the utility will receive such treatment at the hands of the people that will encourage capital to come to the state and help develop our wonderful resources."

The committee declares in its report that the abrogation of contracts existing at the time of the passage of the public utilities act was the source of the most bitter complaints made before the investigators. The committee upholds the commission, however.

The committee, without expressing an opinion either for or against public ownership of utilities, declares that in the absence of such public ownership the policy of the commission of regulated monopolies is the only solution of the problem.

The report declares against the pending amendment to the constitution before the legislature which would permit municipalities to withdraw from the jurisdiction of the commission.

"The committee is convinced," the report declares, "that rates for all consumers should be fixed by a central state body."

CHILD'S MEMORY  
LEADS TO ARREST

(By International News Service)

CHICAGO, March 11.—Little Mary Klein, aged nine, is taking a memory course at school. It came in handy the other day.

Mary arrived at home to find her mother facing three men wearing Federal prohibition agents' badges. One had a revolver while the other two were busy transferring Mrs. Klein's private stock from its basement domicile. The task was soon accomplished and the trio drove away. But Mary remembered their automobile license number—"53386."

Later, when it was discovered that the alleged "Federal agents" were mere liquor bandits, Mary told the police the license number. The machine was traced and the trio now are in jail awaiting Federal indictment. But Mary's father didn't get back his private stock.

WHITE STAR SHOP  
NO. 5 WILL OPEN

C. Caswell, purveyor of good meats to Glendale people, will open White Star Shop No. 5 one week from tomorrow at 1201 North Central avenue, corner of Stocker. A new grocery is to be opened at this place, and Mr. Caswell will operate the meat market connected with it.

Mr. Caswell can buy to great advantage, since he buys for so many shops. He is the biggest meat buyer in Glendale. His success is due to the fact that he gives the people high-class meats at fair prices, and also to his policy of being always pleasant and courteous himself and selecting for his help men who treat the public with civility.

NEW JOURNALISM  
COURSE FOR WOMEN

(By International News Service)

MADISON, Wis., March 11.—Newspaper and magazine departments of interest to women, the first course of the kind to be given in any school of journalism, has been introduced at the University of Wisconsin by Mrs. Genevieve Jackson Boughner, an experienced newspaper woman.

## Passing of Margery McCoy

Margery McCoy, 12-year-old daughter of Mr. and Mrs. James W. McCoy of 218 North Maryland, died this morning at 10 o'clock. Funeral arrangements have not yet been made.

The old-fashioned rick-rack braid is once more coming into favor as trimming for frocks and smocks for little tots.
